ANALEMMA

THE ARCHITECT OF LIFE

Water is not a passive liquid, but a dynamic system of movement, energy exchange, and resonance. Analemma operates on the hypothesis that **coherent mother water** can serve as a stable tuning fork, helping the surrounding water to resonate in a more cohesive and coherent pattern. Developed through years of research into water and biological systems, our products give other water a stable, coherent structure.

What does this mean for you?

Stable coherent water

Designed to organize water into a stable, coherent structure.

Inspired by nature

Based on natural processes such as flow, light, and the four seasons.

Without filtering or additives

Analemma adds nothing to the water and removes nothing from it.

For Every Day

Use Analemma for your daily drinking water, whether at home or on the go.

For animals, plants, the garden, and the surrounding area

Can also be used for pets, plants, gardens, and soil care.

Sustainable and practical

Designed for long-term use, without electricity, filters, or refills.

Different applications with the same result

Available in versions such as the Water Wand, Water Inlay, Point of Use Unit, and Home Unit.
