ANALEMMA

Natural frequencies follow the rhythm of the seasons and vary from day to day. They are attuned to the position of the sun relative to the earth. The position of the sun shifts a little every day and makes an analemma movement throughout the year. Natural frequencies follow this rhythm and shift along with it. The analemma looks like the figure eight and is perhaps better known as the infinity symbol. Our body, and more specifically the water in our cells, is attuned to this cosmic harmony. To be effective, the information presented in the form of harmonic frequencies must be up to date. Therefore, the sound files are offered via online streaming and composed at the time of playing.

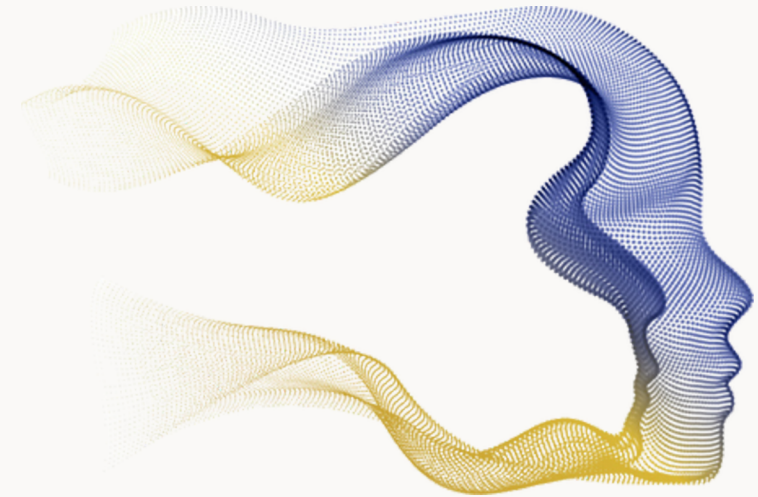

BODY, MIND & SPIRIT

The body is more than just the physical aspect (body), the energetic and spiritual layer (mind & spirit) are just as important. Each sound file is unique and carefully composed to work from all layers: body, mind and spirit. This structure ensures that the body can properly absorb the harmonic information stimuli.

HARMONICS

Digital information is often offered in compressed form such as MP3 files. Thus, part of the information is lost. Information Medicine stands out in this regard because each sound frequency is made up of no fewer than 16 tones. The combination forms a harmonic and is a composition of the fundamental tone with 7 overtones that are played simultaneously in the yin and yang spectrum. The difference is often inaudible, but if you want to use the information in the form of sound therapy, the harmonics are essential. This creates the unique and distinctive wavy sound of our sound frequencies.

Our sound therapy is suitable for everyone: adults, children, animals, plants and also for harmonizing your living environment

“We compose the symphony of our inner nature with water, sound and electromagnetic waves”
Eric Laarakker, founder Information Medicine

INFORMATION MEDICINE IS A RELATIVELY NEW FORM OF MEDICINE – WE BELIEVE IT IS THE HEALTH (R)EVOLUTION TOWARDS THE FUTURE.

With our online platform, we strive to make treatment with healing frequencies accessible to everyone. Aimed at true healing and recovery.

Information medicine activates the self-healing capacity and internal intelligence in the body. Harmonic tones inform the body with electromagnetic and sound frequencies. The cells in the body recognize the body's own frequencies and absorb what they need. This promotes communication, cooperation and recovery at the cellular level and enables healing of body, mind and spirit.

WITH THE RIGHT INFORMATION THE BODY CAN HEAL ITSELF

In our view, most disorders and diseases arise from a disruption in the transmission of information in the body.

Cells communicate with each other through harmonically balanced vibrations. When these vibrations become unbalanced, the cooperation between the cells gets compromised. The greater this imbalance, the less correct information the cell still passes on to other cells. You can think of it as an "orchestra" playing off-key: the cells are less able to cooperate and tune with each other, making the music of the body's own symphony orchestra sound false or "out of tune". The inner balance that naturally exists becomes disturbed and this can lead to complaints and diseases.

Water is the bio-quantum computer.

70% of body weight is water, but in molecular terms the body is 99% water. This bodily water has the special quality of being able to receive and conduct light and sound. Thus, water plays an important role in the communication between all the cells in the body.

The natural harmonic vibration in the body can be restored with the body's own frequencies.

For this we make use of electromagnetic frequencies (light) and harmonic tones (sound). The information is sent to the body via a (vibrating) speaker and is received and absorbed by the water in the body. The body 'resets' itself and the intercellular cooperation and communication is restored. The "body's own symphony orchestra" comes back "in tune" and the body can return to its normal functioning.
